mmol/L

DEXCOM G6 MOBILE APP

Simply glance at your smartphone* for:

- Accurate,[1-2] real-time glucose readings

- Arrows showing you which direction you are trending and how fast you are getting there, so you can take action

Get alerts when your glucose levels go too high or too low

- Create customisable day and night time alerts where you can choose your own thresholds, sounds and/or vibration

- The Urgent Low Soon alert provides a 20-minute advanced warning ahead of serious hypoglycaemia (<3.1 mmol/L)

To install it, search your app store for "Dexcom G6". Compatible with Apple, Android and smartwatches.*

DEXCOM FOLLOW APP

Stay connected with your loved ones

Widen your circle of support by enabling the Share feature in your Dexcom G6 Mobile App and then inviting up to 5 people to follow you.

Followers need to download the Follow App to get access to the same glucose readings as you do, and they can set their own alerts.[†]

To install it, search your app store for "Dexcom Follow". Compatible with Apple, Android and smartwatches.[*]

Glucose ❓

Average Glucose
